The Little Red Hen made some bread. Bake something! Cakes, cookies, bread, biscuits.	Make sure you measure carefully and remember to wash your hands.
Doubling pasta – two bowls doubles to 10. Choose a card from a pack of cards and put that many pieces of pasta into a bowl. Then put the same number into another bowl. Count them all up together and you have doubled the number on the card!	Can you write a number sentence to go with the double?
Find out about a chicken life cycle. Which came first, the chicken or the egg? Draw the stages of the life cycle.	You could make the life cycle into a bracelet or a paper loop that goes round and round.
Nature art! The Little Red Hen found the corn in the farmyard. Use things from the garden like leaves or sticks to create a picture of a nature-art hen.	Make sure it is safe to pick up before you use it in your picture.
Make a Fact File on your favourite farm animal – how many legs has it got, what does it eat and so on.	Can you make a little booklet with labels?
